# AEROFLOAT ENVIRONMENTAL POLICY

Considering the purpose and context of the organisation, and the condition of the environment in which the company operates, the management of Aerofloat (Australia) Pty Ltd is committed to the continual improvement of the Integrated Management System (IMS), according to compliance obligations, by following the principles and requirements of ISO 14001:2015.

The framework for setting environmental objectives is defined in the IMS Manual.

All employees of Aerofloat are acting to protect the environment by preventing and eliminating environmental pollution through:

- Continual education to prevent environmental pollution, preserve natural resources, and improve the IMS
- Continual raising of environmental awareness
- Continual legal compliance
- Exploration of new materials, products and componentry with smaller environmental footprints
- Continual exploration of improvement of hazardous waste management
- Decrease of nonrenewable energy consumption and replacement with renewable energy sources
- Following environmental procedures to decrease environmental pollution, and prevent degradation and damage to the environment
- Decrease noise pollution (emissions)
- Decrease of adverse impact on water, soil, air, and biodiversity.

General Manager – Business Operations is responsible for communicating the Environmental Policy to all persons working for or on behalf of the organisation and making it available to the public.
